In addition, the Council has additional responsibilities under statute. These Financial Regulations provide a framework of policies and controls for managing these responsibilities.
- 1.2 All local authorities are required to establish Financial Regulations to ensure the proper administration of financial affairs which have arisen from the legislative powers conferred upon local authorities and the consequential rights, powers and duties placed upon the Council, the Leader of the Council, Members and Officers.
- 1.3 The Financial Regulations apply to every Member and Officer/employee (including agency and seconded staff) of the Council and anyone acting on its behalf. All Officers and Members have a duty to abide by the highest standards of probity in dealing with financial issues.
- 1.4 Non compliance with these regulations will be referred to the Chief Finance Officer and the Head of Devon Audit Partnership, who will take appropriate action.
- 1.5 The Financial Regulations should ensure compliance with all accounting and auditing standards, and codes of practice, which are produced by the appropriate professional accountancy bodies.

The Chief Finance Officer legislative requirements apply to all council assets and liabilities included subsidiary companies. The CFO therefore has responsibility for the financial systems, financial procedures and financial regulations in use by the subsidiary companies.
- 1.7 These Financial Regulations are intended as an aid to good financial management and outline the necessary procedures to secure the proper administration of financial affairs. Financial regulations will also be supplemented by more detailed financial instructions issued as and when appropriate by the Chief Finance Officer or his/her nominated representative.

- 2.2 In addition the Chief Finance Officer, or his/her properly appointed nominated representatives, have duties under Sections 114 and 114A of the Local Government Finance Act 1988 see paragraph 3.5.
- 2.3 The Accounts and Audit (England) Regulations 2015 also confer further responsibilities upon the Chief Finance Officer, or his/her nominated representatives, including determination of and responsibility for the accounting systems and supporting records and systems and internal control (including internal audit). These regulations have been produced to comply with these requirements.
- 2.4 The Chief Finance Officer is also responsible for the publication of financial related notices, documents and the completion of returns as required under statute.

Asset Records

- 9.1 The Chief Finance Officer shall commission the Asset Management Service to maintain a terrier and asset register of all assets owned or leased in by the Council in a form approved by the Chief Finance Officer to comply with proper accounting practice. The asset register shall record: the holding body (if applicable); purpose details; nature of Council's interest; and rents payable, with particulars and terms of tenancies granted. The terrier is to be regularly reconciled to records held in the asset register.
- 9.2 The Asset Management Service, the Chief Finance Officer and other appropriate officers shall co-operate in the preparation and maintenance of an asset register in suitable format and containing all the relevant information to comply with proper accounting practice. The valuation of assets, including an assessment of componentisation and asset life, shall be carried out as necessary to comply with proper accounting practice. The asset register (finance module) to contain details of accounting treatment and asset classification including current cost and historic cost records as required. The asset register (finance module) is required to comply with proper accounting practice.
- 9.3 The ownership of the asset register and terrier remains with the Council, though the Asset Management Service will maintain the records held and ensure an annual reconciliation.
- 9.4 All non-current assets should be recorded on the asset register, but valuations are only required for those individual assets where the value is estimated to be over £25,000. Where a group of assets e.g. computer equipment, collectively totals in excess of this amount, an entry should be made on the register to reflect this.
- 9.5 The Monitoring Officer shall have the custody of all title deeds and leases under security arrangements agreed with the Chief Finance Officer.
- 9.6 Intellectual property is something unique that the Council has physically created. To protect internally developed intellectual property from theft and copying, Heads of Service should consider registration e.g. trade marks for logos or copyright for software created. Protecting these assets makes it easier to take legal action against anyone who steals or copies it.
- 9.7 If intellectual property is registered, the Head of Service must notify the Chief Finance Officer so the asset can be added to the asset register and the same safeguards that apply to the Council's other assets can be applied to these assets.

Asset Disposals and Leases

- 9.8 For approval purposes a disposal is deemed to be applicable for both a freehold disposal and any lease where the term is in excess of 40 years.
- 9.9 The Council shall commission the Asset Management Service to undertake the arrangements for the lease or disposal in line with the terms specified by the relevant budget holders and these Financial Regulations and Contracts Procedures.

- 9.10 Officers will identify surplus assets for disposal or lease in accordance with the Officer Scheme of Delegation.
- 9.11 Officers will identify operational assets for lease in accordance with the Officer Scheme of Delegation.
- 9.12 Proceeds of asset disposal will be allocated in accordance with the approved Capital Strategy. Any proposal by a service to utilise the proceeds for a specific purpose or recommend to Council the disposal of the asset at below market value will need to be agreed by Chief Finance Officer in light of the overall financial position of the Council and any, as yet unachieved, capital receipts target.
- 9.13 All disposals or leases shall be subject to a formal process prior to entering into a written contract. All disposal and leases shall comply with the Council's Contracts Procedures. All disposal or leases above a market value of £10,000 (in the opinion of a RICS qualified valuer) must be conducted via the Council's Electronic Tendering System. This process shall include details of the asset and any conditions and specifying a reasonable closing date by which expressions of interest must be received. Standard forms of documentation shall be used where possible. The disposal or lease process can include the use of a public auction or similar competitive method such as a property listing website for at least ten working days in preference to the Electronic Tendering System.
- 9.14 In accordance with Contracts Procedures, disposal and lease tender processes in respect of property expected to be greater than £50,000 must be electronically sealed. The Electronic Tendering System is set up to electronically seal tenders above £50,000. Verifiers are set up in the system, which are Officers who are able to electronically unseal Tenders. Verification may only be undertaken by an authorised Verifier who has duly been approved by the Monitoring Officer and Procurement Service.
- 9.15 There are instances where a disposal tender process is also subject to Public Contract Regulations. This is usually when the disposal involves an element of land development. In these instances, advice should be sought from Procurement, Contract Management and Commissioning.
- 9.16 Regulation 9.13 to 9.15 shall not apply to any of the following types of disposals or leases:-
- (a) Grants of leases to existing tenants where security of tenure may exist and the terms of the lease not significantly changed (whether or not their existing tenancies have come to an end);
 - (b) Where the Grants of leases or licences relates to an asset where:
 - the market rent for an annual market rent does not exceed £10,000 per annum; or
 - the market value of the asset does not exceed £25,000 and
 - the length of the lease is less than 10 years;
 - (c) Disposals of land acquired under compulsory purchase powers to the original

owners of that land or their successors;

- (d) Disposals of freehold in land where the interest disposed of is estimated not to exceed £10,000 in market value in the professional opinion of a member or fellow of RICS; Note the Council does not dispose of freehold property unless under statute but will consider a long term lease or if exceptional circumstances.
- (e) Long term lease under the Councils Community Asset Transfer Policy.

9.17 The Chief Finance Officer (in consultation with the Leader of the Council and Monitoring Officer) may give written authorisation to waive the requirements of Regulation 9.13 to 9.15 where he/she is satisfied that the proposed disposal or lease will be in the best interest of the Council and that the proposed terms of the disposal or lease are unlikely to be bettered by complying with Regulation 9.13 to 9.15.

9.18 All disposals and leases are to be accounted for on a gross basis showing the market value of the transactions. Any form of non cash transaction such as an exchange of land, nomination rights, or a concessionary rent below market value or similar transaction forms part of a budget holders' financial control (as set out in section 5 above).

9.19 Where a disposal or lease of land or buildings has been expressly approved by Council or the Leader of the Council, that decision shall be actioned by Officers.

Acquisitions

9.20 Where an asset has been identified for acquisition, if the market value of the asset is less than £50,000 the Officer Scheme of Delegation applies, if in excess of £50,000 the Leader of the Council (where the acquisition is within the budget approved by the Council) or Council (if the acquisition is outside the budget and policy framework) shall approve the acquisition of that asset. In both cases this is subject to the funding being identified for the purpose, any ongoing revenue implications considered and will then be included in the Capital Strategy.

24.1 Procurement is the award, entry into and management of a contract.

24.2 In the context of these Procedures reference to Procurement includes:

- a. any step taken for the purpose of awarding, entering into or managing the contract;
- b. all or part of the procurement; and
- c. termination of the procurement before award of the contract;

regardless of whether the procurement is covered under public procurement legislation.

25. Procurement Objectives

25.1 When putting external contracts in place the Council will give regard to the importance of:

- a. delivering value for money;
- b. maximising public benefit;
- c. sharing information for the purposes of allowing Suppliers and others to understand the Council's procurement policies and decisions;
- d. acting, and being seen to act, with integrity (acting transparently, fairly and proportionately); and
- e. supporting achievement of the strategic priorities set out in the Torbay Community and Corporate Plan.

25.2 During a Procurement the Council will treat Suppliers the same unless a difference between the Suppliers justifies different treatment. Where different treatment is justified the Council will take all reasonable steps to ensure it does not put a Supplier at an unfair advantage or disadvantage.

25.3 The Council will give regard to the fact that small and medium-sized enterprises may face particular barriers to participation and will consider whether such barriers can be removed or reduced without putting a Supplier at an unfair advantage or disadvantage.

25.4 The Council will give regard to the strategic priorities set out in the National Procurement Policy Statement.

25.5 Where the Procurement falls under the Health Care Services (Provider Selection Regime) Regulations 2023 (PSR) the Council will act with a view to:

- a. securing the needs of people who use the services;
- b. improving the quality of the services; and
- c. improving efficiency in the provision of services.

 - c. the Health Care Services (Provider Selection Regime) Regulations 2023 which, where they apply, take precedence over the Regulations and local considerations;
 - d. other applicable primary or secondary legislation and regulations (refer to definitions for further details); and
 - e. the Council's Constitution, specifically Financial Regulations and the Officer Scheme of Delegation.

- 34.2 The Council will not sub-divide or artificially disaggregate Contract values in any way and will consider spend across the whole Council for the requirement.

35. Threshold Values

- 35.1 The UK Government biennially sets Threshold Values for the purposes of applying the Regulations. There are different Threshold Values for services and supplies, light touch services, works and concessions (services and works) Contracts.
- 35.2 The Council will take the Threshold into account when determining how to conduct a Procurement.

36. Procurement Timescales

⁶ refer to definitions for further details

39. Risk Assessments

- 39.1 The Council will take a risk-based approach to determining the route to market and level of Contract management required for individual Contracts. This approach is set out in the Commercial Policy.
- 39.2 For high value Contracts where there is a significant level of risk the Council may consider the requirement for a Supplier to provide some form of bond or guarantee. The inclusion of bonds or guarantees will be subject to the approval of any officer within Financial Services nominated by the Director of Finance to give such approval.
- 39.3 The assessment of Supplier financial standing will be undertaken in a manner that is proportionate to the nature of the Contract and level of risk, giving due regard to ensuring requirements do not have the effect of disadvantaging SMEs, VCSEs or new businesses or barring them from Tendering.

C. Routes to Market

40. Procurement Procedures

- 40.1 The procurement procedure used will be established in accordance with Table 2, considering the value, complexity and risk associated with the Contract.
- 40.2 Instructions on how to calculate the estimated value and full details of the individual procurement options are contained within the Commercial Policy.

Below Threshold Procurements

Above Threshold Procurements

- 40.4 The Council will use only those procedures permitted under the Regulations, Commercial Services will establish the appropriate route to market considering the value, risk and complexity of the Contract and size of the market. This includes the use of Framework Agreements and Dynamic Purchasing Systems which the Council is eligible to access and where the Procurement can be undertaken in accordance with the specific call-off process.
