

## **Torre Valley North Playing Field**

Note from Anthony Butler

Although council officers may have been speaking to the cricket club about granting them a lease of the premises, the cricket club did not and do not presently have a lease and therefore wouldn't have been a consultee in respect of the planning application.

As a user of the ground, whether their views should have been obtained is perhaps an outcome that the Overview and Scrutiny Board may want to discuss.

I do not consider that what has occurred is sufficient to give rise to a successful claim for maladministration by the cricket club against the council.
