

Notice of Motion – Amendment to the Council’s Petition Scheme

Council Meeting 8 December 2016

The Council’s petition scheme requires a signature, address and postcode. By making petitioners provide a postcode can exclude people who may wish to sign petitions.

Therefore this Council resolves:

That the Monitoring Officer be instructed to amend the Council’s Constitution to remove the requirement for petitioners to include a postcode as part of their address when signing a petition to further support public involvement and engagement.

Proposed by Councillor Darling (S)

Seconded by Councillor Carter
