Delivery and Oversight	18

Foreword

Torbay's Strategic Partnership wants the people of Torbay to have an unrivalled quality of life, in one of the UK's most beautiful destinations. It wants to see a place where connectivity, culture and ambition are growing fast, creating opportunities for everyone who lives, works and enjoys being here.

This Joint Health and Wellbeing Strategy has been put together by partners within the health and wellbeing community in Torbay who work across the public and voluntary sectors and form the Health and Wellbeing Board. It is part of the Council's Policy Framework which is a suite of strategies and plans which cover the range of Council functions. Equally, it sits alongside the plans and strategies of NHS commissioners and providers in Torbay.

The Board wants to make a difference for the people that live and work in Torbay and its members are working together as a voice across organisations to agree the areas we all need to focus on if we are to make that real difference. Together, we need to address the wider economic, social, lifestyle and environmental factors which will improve the life chances for individuals. The Board has set its collective ambition **to create a healthy Torbay, where individuals and communities can thrive.**

We want to ensure our effort addresses what's important to people in their lives and what helps us all to enjoy life more, be that at home, at work or in our communities. We have a national and international reputation for our integrated working across health and social care but we know we need to go further if we are to meet our ambition. We need to put greater effort into tackling the inequalities we have across Torbay and into addressing the wellbeing of those who have challenging lives.

The priorities within this Strategy have been shaped and informed by listening to the people of Torbay, and by looking at our data and sharing our experiences. They reflect our common aim of shifting our effort towards prevention, early intervention and self-care and our common vision of a local health and wellbeing system where people are empowered and enabled to take greater control of their lives utilising the many assets we have in our communities. The priorities recognise that we must ensure children and young people grow up in environments where they are safe and that enable them to become healthy, happy and aspiring adults. Importantly they identify the pivotal importance of mental wellbeing to health, especially in our young people, and the importance of our environments and communities to health. Finally they acknowledge the wellbeing aspirations of adults as they age.

In Torbay, the costs of, and demands on, our many services are increasing at a time when our population is ageing and our budgets are under pressure. We need to find new and better ways of working together to address these challenges. This Strategy sets out an objective and set of priorities for a more sustainable future. It is underpinned by a commitment to partnership working by the Health and Wellbeing Board to maximise the utilisation of existing resources and to secure additional resources to improve our response to Torbay's challenges.

Only our collective efforts will turn the tide on the cycle of ever increasing demand and cost. This is the call to action for us to work together over the next five years to deliver a healthy Torbay and to send out the clear message that our people and our population matter.

Councillor Jackie Stockman
Chairman of the Torbay Health and Wellbeing Board

Context

Torbay offers a great quality of life for individuals and families. With its natural environment, clean air, climate, location, excellent schools, growing arts and cultural sector, and wide range of outdoor activities, Torbay provides everyone the opportunity to live a healthy and fulfilled life.

Torbay covers an area of over 24 square miles, located in South Devon, known as the English Riviera. It is made up of the three towns of Torquay, Paignton and Brixham and comprises over 20 beaches and secluded coves along 22 miles of coastline located around the east facing natural harbour of Tor Bay.

With a population of over 133,000, Torbay is the second largest urban area within the Heart of the South West. It is a retirement destination for many fit, active, skilled and affluent older people which is reflected in the population structure.

Like many coastal areas, Torbay has its challenges. In some areas of Torbay, there are high levels of poverty and deprivation with not enough opportunities for young people. Overall productivity levels in Torbay remain amongst some of the lowest in the country partly due to the high levels of low paid employment in elements of the tourism and independent care sector, as well as the small percentage of our local population who are economically active. Our ageing population means that a higher proportion of diminishing public resource is spent on care.

Torbay's Economic Strategy seeks to build on local strengths, including a strong entrepreneurial culture, our growing reputation in photonics and electronics cluster and our established fishing, tourism and hospitality sectors. Efforts under Torbay's Economic Strategy will deliver economic growth, help tackle inequality and create change that benefits everyone who lives here. Torbay also has a national reputation for the ground breaking work that has led to integrated health and social care and, more recently, the integration of the acute and community NHS trusts. Integration of services lays the foundation for people to more easily access the health and care services they need, and reduces unnecessary duplication of service provision. Public sector organisations have close working relationships with the Torbay's extensive community and voluntary sector and many people who live in Torbay volunteer their time with local groups and charities.

Torbay's Joint Strategic Needs Assessment (JSNA) provides a suite of documents, web tools and presentations, which help to analyse the health needs of the local population. This data informs and guides the commissioning of health, wellbeing and social care services within Torbay. The JSNA enables local leaders to work together to understand and propose how to meet the needs of the local population. The Joint Health and Wellbeing Strategy can be read in conjunction with the JSNA for more detail and analysis.

What is life like for the people of Torbay?

- The population of Torbay is ageing more than other areas of the country – the number of people over 85 is set to double over next twenty years
- Levels of deprivation are increasing with 45% of residents living in an area in the top 20% most deprived in England
- Torbay is the most deprived local authority area in the South West and inequalities have been widening as relative deprivation worsens
- There are relatively high numbers of people with few qualifications, low earnings and claiming benefits
- House prices, on average, are £40,000 less than the England average but to buy a house in Torbay costs nearly seven times the average salary
- Housing conditions are of concern, with a higher percentage of private rented housing and significantly lower numbers of residents in social rented housing than national averages
- Homelessness and insecurity of tenure is rising with 24 people street homeless at the last count
- The violent crime rate is significantly higher than the England average
- Anti-social behaviour is significantly higher than England and other similar local

What is life like for children and young people?

- There is good early years educational achievement against the national standard, but a gap is emerging between poorer and better off students especially at secondary school
- 1 in 4 children live in poverty and there are issues of debt and food insecurity
- Almost 1 in 5 mothers smoke during pregnancy, low numbers of babies are breastfed and 1 in 3 children are overweight by age 11
- The rate of Children Looked after is high
- There are significantly worse rates of specific admissions to hospital for alcohol and higher prevalence of smoking for young people
- There are significantly higher numbers of admissions to hospital for self-harm
- There are high numbers of young people claiming benefits and high rates of first time entrants to the Youth Justice System

What is life like for adults?

- Smoking rates remain higher than the national average - 17% of over 16s smoke compared to 15% nationally
- The rate of physically activity is 66%, similar to national rate of 65%
- The hospital admissions rate for alcohol specific conditions is 79% - higher than the England rate
- Those classified as overweight or obese is 61% which is the same as for England
- There is high prevalence of a range of chronic conditions such as diabetes, depression, hypertension, cardio-vascular disease and Chronic Obstructive Pulmonary Disease - this has led to high levels of preventable admissions to hospital

What is life like for older adults?

- Many people chose to retire to Torbay and most live full and happy lives
- However, the numbers with more than one health condition is expected to rise by a third in the next ten years
- Frailty and dementia are also estimated to rise
- Age-related dependency and unpaid carer levels are significantly higher than nationally
- Rates of long-term support needs are significantly higher than England averages in relation to mental health and social isolation

This data paints of picture of a community where, despite a vibrant tourism industry, an environment that attracts many to make this their home and Torbay's offer of an active and fulfilling life, there are still many areas and many of its people who lead challenging lives. High levels of deprivation, a low wage economy, poor levels of qualification and poor housing have resulted in some children growing up in relative poverty where inequalities are evident in terms of their educational achievements, aspirations and health. This in turn leads to disparities in lifestyle choices, in illness and disability and ultimately in health and care needs and costs.

The stark fact is that a female living in the most deprived area of Torbay will live, on average 8.9 years less and a male 5.2 years less than a person in the least deprived area of the Bay.

The following table summarises the strengths that Torbay has together with the issues which we still need to address. To address these issues we need a response across all agencies in Torbay to maximise the range of opportunities that are available to us.

STRENGTHS	ISSUES	OPPORTUNITIES
<ul style="list-style-type: none"> ▪ Torbay has a long and successful history of partnership working especially between health and social care with an integrated organisation delivering acute and community healthcare and adult social care ▪ There is a vibrant Community and Voluntary Sector in Torbay which is actively engaged in the integration and prevention agenda ▪ Organisations in Torbay are committed to a common purpose to address inequalities, to work with communities and to bring a greater focus to prevention, early intervention and self-care and to the determinants of poor health. ▪ People are willing to do things differently and there is a culture of learning ▪ We have involved and listened to people and what they want and there are a number of forums for the local voice such as the Older People's Forum ▪ There is a desire to work to address the needs of people living with multiple complex needs ▪ There is a strong sense of community and some innovative community led initiatives in parts of Torbay such as the work on isolation in the over 50s ▪ Torbay has led the way ensuring planning decisions consider health and wellbeing 	<ul style="list-style-type: none"> ▪ Child poverty and levels of deprivation remain high in Torbay ▪ There are many families living in poor housing conditions ▪ There are high levels of violent crime, antisocial behaviour and domestic abuse ▪ Though educational outcomes in schools are generally good there are inequalities between and within schools which need addressing ▪ There are large numbers of people whose lifestyle is having an adverse effect on their health. Most important areas are smoking, obesity and physical activity ▪ Emotional well-being and mental health issues are of concern particularly amongst young people, there are concerning numbers of suicides and higher than national levels of self-harm ▪ Torbay has one of the highest rates of Children Looked After in the country with issues of underlying neglect linked to poverty and drivers of need ▪ There are higher proportions of older people especially over 85s in Torbay. Often these people have high levels of isolation and are carers ▪ There is a lack of resilience in primary care ▪ Though there are emerging pockets of innovative practice and a commitment to shift the focus, currently services still focus on treatment and illness rather than the promotion of well-being 	<ul style="list-style-type: none"> ▪ Expand the work around Healthy Torbay to ensure a focus on regeneration and skills development ▪ Deliver our Lifestyle Service at scale and with greater reach and impact. ▪ Work together to meet the needs of people with multiple complex needs ▪ Build on and expand our work on promoting exercise and addressing the growing levels of obesity ▪ Proactively work with partners to implement the Housing Strategy ▪ Devon-wide Emotional Health and Wellbeing Strategy is in place and links to the Torbay Children and Young People's Plan ▪ New Children and Young People's Plan is in place and will be delivered by the Children and Young People's Strategic Partnership ▪ Build on current local work such as the work in Brixham to find local solutions to promote and address mental health ▪ Support the Older People's Forum to work to enable people to age well ▪ The aims of the Prevention Board should be promoted to embed prevention, early intervention and self-care at all opportunities ▪ Create and deliver a training programme to "Make Every Contact Count" ▪ Consider how the workforce within primary care can be strengthened

Objectives and Priorities

Objective

The objective of the Health and Wellbeing Board and of this Joint Health and Wellbeing Strategy is:

To create a healthy Torbay where individuals and communities can thrive.

The Health and Wellbeing Board wants to see a Torbay where:

- All children born and raised in Torbay have the same life chances
- Children and young people have high aspirations and good employment opportunities
- Skill levels are raised and broadened and people are supported to access employment
- Everyone has housing which meets their needs and there are a variety of tenancies and housing opportunities in Torbay
- Mental and emotional health is given an equal focus alongside physical health
- People are enabled to make healthy lifestyle choices
- Services are based on what's important to people not what is the matter with people
- There is an integrated holistic service for those who live the most challenging lives
- Older people are supported to be as independent and socially connected as they can be and, if care is needed, it is of quality and compassionate

Priorities

Torbay has a long history of partnership working with a range of partnership bodies in place with their own plans. Many of the priorities of these partnerships overlap and seek to address the issues identified in the Joint Strategic Needs Assessment. The Joint Strategic Needs Assessment indicates the priorities for Torbay Council, South Devon and Torbay Clinical Commissioning Group and its partners – as a system – to address. The priorities form the 'golden threads' which should underpin all commissioning and service activity across the partnership.

Priority 1: Working together, at scale, to promote good health and wellbeing and prevent illness

Priority 2: Enable children to have the best start in life and address the inequalities in their outcomes

Priority 3: Build emotional resilience in young people

Priority 4: Create places where people can live healthy and happy lives

Priority 5: Support those who are at risk of harm and living complex lives, addressing the underlying factors that increase vulnerability

Priority 6: Enable people to age well

Priority 7: Promote good mental health

Priority 1: Working together, at scale, to promote good health and wellbeing and prevent illness

What do we want to achieve?

We will work with all sectors and organisations in Torbay to put an emphasis on keeping people well, preventing ill health and intervening early if they become ill.

What are our goals?

We want to see:

- more people choosing and enabled to live healthy lifestyles and fewer people unwell
- more people living independently in resilient communities
- people being supported to have the knowledge, skills and confidence to self-care and better manage their health conditions
- the health and care system ready and able to intervene early if necessary.

What are the specific outcomes that we want to see in Torbay by 2022?

There will be a shift to focus on prevention of ill health, self-care and early intervention across all services – prevention of ill health will feature in everybody's plans and the new model of care will optimise prevention within health and social care.

Services will take into account the underlying determinants of health in their day-to-day work and strategies, and we will build community resourcefulness to promote health and emotional wellbeing for all.

People's health literacy and ability to self-help and self-care will be improved, and staff will be given the opportunities and skills to work in a strengths-based way. Transformational models of service and care delivery will be developed with a greater emphasis on enablement and information sharing, in addition to support.

Priority projects will be those which bring the greatest impact. Services will deliver new ways of working that address what is important to people. These services will inform and empower people to lead healthier lives, to identify and address illness earlier and to enable individuals to manage their illness themselves or with the support of assets within their own community.

To make this happen we will:

- Work to encourage the use of the following enabling tools in front-line services:
 - MECC (Making Every Contact Count)
 - Directories of service
 - Social Marketing
 - Community Grants
 - Patient Activation
 - Social prescribing
 - Shared decision making
 - HOPE (Helping Overcoming Problems Effectively)
- Deliver work year-on-year across Torbay in specific project areas to bring early benefits. These project areas include improving access to lifestyle advice, health and lifestyle screening, improving ease of access into lifestyle services, early intervention when someone becomes ill, prevention of falls and frailty, mental health promotion and addressing gaps in how we prevent or control infection in the community and in care homes.

Priority 2: Enable children to have the best start in life and address the inequalities in their outcomes

What do we want to achieve?

We want all children in Torbay to grow up safe, happy and healthy in order that they can reach their full potential. Children and young people have said they want to have fun, to be safe, to be with friends, to be looked after by someone who cares for them, to have a good education, to eat healthy and nutritious food and to be encouraged and supported to do activities and exercises that interest them.

What are our goals?

We want to see:

- children having the best start in life
- the impact on children and families from domestic abuse, alcohol/substance misuse and all forms of child exploitation reduced
- improved education outcomes for all children and young people regardless of where in the Bay they live
- young people being healthy, making positive choices and influencing their own future.

What are the specific outcomes that we want to see in Torbay by 2022?

There will be an integrated service for 0-19 year olds focused on their strengths and needs and on prevention and early intervention. The service will deliver the Healthy Child Programme for all children and young people 0-19 years. Torbay Council's Economic Strategy will tackle child poverty and we will focus on addressing the underlying causes of deprivation in those communities most impacted.

There will be a multi-disciplinary model delivered through Family Hubs providing family support with embedded expertise around child development and health, substance misuse, domestic abuse and sexual violence, adult mental health and child and adolescent mental health. Services will be trauma-informed and take account of Adverse Childhood Experiences in the wider family.

We will drive improvements in attainment whilst ensuring services for vulnerable learners are of high quality to close the attainment gap. We will enable robust education and employment pathways to maximise opportunities for young people.

The emotional health and wellbeing of young children and young people will be improved through working with Play Torbay and the Youth Trust to ensure there are opportunities for young people when they need them most. Children and young people will be provided with opportunities which inspire them.

To make this happen we will...

- Support the formation of a Children and Young Peoples' Strategic Partnership to deliver the Children and Young People's Plan
- Make a Torbay-wide integrated service offer for 0-19 year olds
- Focus on addressing the causes and effects of child poverty
- Promote healthy lifestyles for all ages across the life course, and maintain a focus on keeping children, young people and families well.

Priority 3: Build emotional resilience in children and young people

What do we want to achieve?

We want all children and young people to experience good emotional health and wellbeing, to thrive and have the ability to build emotional resilience.

What are our goals?

We want to see more children and young people:

- experiencing good emotional health and wellbeing
- recovering from their emotional health and wellbeing needs
- having better physical health and better emotional health and wellbeing
- having a positive experience of care and support
- having access to high quality support, as close to home as possible.

And we want to see:

- more people having an understanding of emotional health and wellbeing.

What are the specific outcomes that we want to see in Torbay by 2022?

Families, schools, colleges, local communities and services will be able to develop and support emotional wellbeing and resilience using a model called the THRIVE framework and principles developed by the Anna Freud Centre.

Transitions between support services will be improved, ensuring that children and young people receive effective support when in crisis and provide support to prevent crisis occurring/re-occurring. Support from specialist mental health services will be there when it is needed. Services will be outcomes focused and evaluated.

There will be support for the emotional health and wellbeing needs of those who have experienced abuse (sexual, physical, emotional and/or neglect) and/or physical ill health. Similarly there will be support for those whose parent(s)/carer(s) experience mental ill health; those with Autistic Spectrum Disorder or learning disability; and those who are demonstrating challenging behaviour.

To make this happen we will:

- Support early years settings, schools and colleges through guidance, resources, training opportunities and service signposting via the Torbay Healthy Learning website and social media platform
- Promote and facilitate coordinated personal health and sex education (PHSE) delivery, training and peer support through the multi-agency Wellbeing Outcomes Network;
- Take a whole family approach
- Ensure our objectives are embedded in the 0-19 year integrated service and in the Child and Adolescent Mental Health Service
- Co-design and co-produce with children and young people who are part of the wider system.

Priority 4: Create places where people can live healthy and happy lives

What do we want to achieve?

We want Torbay to be a place where people can thrive, where the housing and infrastructure of the Bay promotes health and where people are engaged with wellbeing.

What are our goals?

We want to:

- get more people moving
- encourage people to reach maintain a healthy weight
- promote people drinking sensibly and becoming smoke free
- enable people to be a part of their community and live fulfilled lives
- ensure our planning and housing systems promote health.

What are the specific outcomes we want to see in Torbay by 2022?

Community resilience will be promoted and improved and there will be a focus on regeneration and skills development.

There will be “Health in All Policies” – the policies of organisations across our partnership will maximise opportunities to promote health and wellbeing in general and to tackle inequalities, in particular. The health and wellbeing of staff will be improved and they will promote wellbeing through their interactions with others.

Standards of accommodation in the private rented sector will be improved and individuals will be encouraged to express concerns, especially those who feel vulnerable or don't wish to act for fear of repercussions.

To make this happen we will...

- Extend the reach of our Healthy Torbay programme to better engage with communities
- Work to develop a Healthy Towns approach, connecting with a wide range of partners, and in particular the community and voluntary sectors, to engage people in their health and wellbeing. Develop partnerships with Councillors and community builders in deprived areas, as the initial phase
- Deliver the Healthy Weight Action Plan through the Healthy Weights Steering Group with an initial focus on infant feeding and a schools-based holiday hunger programme
- Through the multi-agency Physical Activity Steering Group, launch “Torbay on the Move”, and promote flagship projects for all ages across the life course including the “Run for your Life” challenge for primary schools
- Relaunch the Torbay Housing Partnership to provide leadership in progressing the aspirations set out in the Housing Strategy Action Plan. This will include action to address fuel poverty and to respond to poor housing issues
- Establish a Torbay Tobacco Alliance to support our residents and visitors to be smoke free.

Priority 5: Support those who are at risk of harm and living complex lives, addressing the underlying factors that increase vulnerability

What do we want to achieve?

We will work together with people and families who have multiple complex needs to provide an integrated system based on what's important to them. We will focus on prevention of ill health and intervening earlier. We will work with people to achieve improved wellbeing and social stability. We will work with people who have mental or physical health conditions, learning disability and/or autism, towards a goal of full independence.

What are our goals?

We want to:

- develop services for those most in need based on a “Housing First” approach
- redesign the system to have a more preventative strength-based approach and a greater ease of access to support
- ensure the specific needs of young people are considered as they transition into adult services
- ensure any future strategy considers the needs of those who are living with multiple needs
- support young adults with complex needs to live independently
- ensure people are supported by a quality workforce

What are the specific outcomes that we want to see in Torbay by 2022?

We will seek an end to street homelessness in Torbay. All people with complex needs will be offered a holistic assessment that is trauma-informed and considers the drivers of need, such as debt and housing.

There will be a quantifiable decrease in alcohol related admissions to hospital and a fall in emergency visits to hospital because of domestic abuse, sexual violence, self-harm or substance misuse.

There will be a decrease in isolation and improved emotional health for those who are most at risk.

There will be more adults with a learning disability, autism and/or mental health conditions in suitable settled accommodation, and in meaningful employment.

To make this happen we will...

- Invest in service re-design, including outreach, to resolve the issues for those with complex needs such as housing, mental health and drug or alcohol disorders
- Make an integrated support offer for those with complex lives, informed by and involving those with lived experience of complexity
- Implement a multi-agency project to focus on a permanent end to rough sleeping and to support those on the edge of homelessness
- Work to relocate those with the most complex learning disabilities and mental health needs closer to home through the Transforming Care Partnership
- Work with the Devon-wide Sustainability and Transformation Partnership to further integrate mental health and primary care into community settings
- Redesign holistic support for families with children, where there are parental difficulties with mental ill health and/or substance misuse.

Priority 6: Enable people to age well

What do we want to achieve?

We want all people living in Torbay, regardless of age, to feel valued, included and able to become involved in a growing and thriving community. We want Torbay to be a place where there is opportunity for all and where people can grow up, grow old and age well together.

What are our goals?

We want to:

- enable isolated older people to feel (re)connected with friends, their communities and where they live with an increased sense of 'neighbourliness' and engagement in a broader range of accessible and affordable activities
- enable older people feel their lives have value and purpose as life changes, being able to contribute their time, skills and knowledge to their community
- ensure older people have high personal, learning and service aspirations for later life facilitated by better information, advice and more integrated services
- ensure more local residents value older people, and that ageing is viewed positively
- enable older people to remain independent and, when care is needed, to receive support for ongoing needs that it is good quality and builds on their existing strengths.

What are the specific outcomes that we want to see in Torbay by 2022?

Our older people will feel their lives have value and purpose, through being supported to have a positive sense of identity as life changes and being able to contribute their time, skills and knowledge to their community. People in their middle years will view older age as an opportunity.

Our older people will have high personal and service aspirations for later life. Organisations will focus more on what matters to older people as they lead or contribute to decision-making in Torbay, knowing where and how to find information or support if required.

Our older people will feel connected with friends, their communities and where they live through an increased sense of 'neighbourliness'. They will have greater access to technology for information, leisure and social connection. There will be more opportunities to enjoy the outdoors and feel safe in their local environment through improved transport and access.

More of the local community will value older people, and ageing will be celebrated and viewed more positively by all. There will be increased opportunities for others to benefit from the skills and experience of older people and increased opportunities between generations to connect and have a greater understanding.

To make this happen we will...

- Review the benefits of the Ageing Well programme and mainstream those activities that have produced evidenced benefits
- Build more extra care and supported flexible accommodation to meet changing needs
- Shape the care home and care market by collaborative working and provide more dementia and nursing provision
- Test the technological solutions that enable people to stay at home and remain independent
- Support the independent care workforce to be "Proud to Care" and through other innovations including designing new roles that attract people into the sector
- Work to ensure creative housing solutions and changing care settings contribute to the regeneration and vision for our town centres.

Priority 7: Promote good mental health

What do we want to achieve?

We will improve, build on and link to community assets that promote mental wellbeing.

What are our goals?

We want to:

- improve access to services in the right place at the right time
- have a cohesive and joint strategic approach to all-age mental health
- identify and acknowledge the wider determinants that affect mental health and wellbeing
- give a strong focus to preventing mental ill health
- support individual resilience.

What are the specific outcomes that we want to see in Torbay by 2022?

Wellbeing and resilience across the population of Torbay will be improved using evidence based guidance and interventions that are designed to increase awareness and knowledge, reduce stigma and encourage positive behavioural changes.

There will be parity of esteem for mental health across major employers in Torbay. Opportunities will be provided for mental health to be discussed in many more areas than just healthcare settings.

There will be a consistent approach to managing the physical health of individuals with Serious Mental Illness to improve outcomes in relation to long term conditions and life expectancy. Appropriate housing and employment for people with mental illness will be provided.

Access to services will be improved with clear pathways into services, including self-referral, which are easy to use and seamless across organisational boundaries. There will be support within Primary Care settings, such as Health Navigators and specialist practitioners, who can support and signpost individuals, reducing the risk of escalation into secondary mental health services.

To make this happen we will...

- Roll out Making Every Contact Count (MECC) and Making Every Contact Count in Mental Health (Connect 5) training to front-line services and to the community and voluntary sector across Torbay
- Develop a menu of services, within the statutory and voluntary sector, which will support individuals with low level mental health difficulties, such as depression and anxiety, which will reduce the risk of escalation of acuity and crisis
- Run a 5 Ways to Wellbeing social marketing campaign, following the recommendations of the Public Mental Health Concordat
- Better engage with, and build on, the many examples of work in schools, workplaces and communities where communities and staff have begun to address issues around mental ill health within their own town or setting
- Ensure the learning from local ways of working (such as the community-led work in Brixham) is shared and makes a sustainable real difference
- Ensure we action the Torbay Multi-agency Suicide and Self-harm Prevention plan, to better understand, and prevent, suicide and self-harm locally.

Delivery and Oversight

The delivery of this Strategy will be overseen by the Health and Wellbeing Board. Health and Wellbeing Boards were established to:

- Agree the long-term strategy for improving the health and wellbeing of the people of Torbay
- Oversee the implementation of the Joint Health and Wellbeing Strategy
- Promote integration throughout the health and wellbeing system to ensure delivery against the Board's priorities.

However, the integration of health and social care in Torbay was well established before the requirement to appoint Health and Wellbeing Boards. Similarly, and as referenced earlier, many other partnerships have been in place in Torbay for a number of years.

It is also recognised that the system priorities cover many areas, and that these are being addressed by a number of already established organisations and partnership arrangements. These partnerships include:

- Devon-wide Strategic Transformation Partnership (STP)
- Torbay and South Devon Local Care Partnership
- Torbay and South Devon NHS Foundation Trust Prevention Board
- Children and Young People's Strategic Partnership
- Torbay Community Safety Partnership
- Healthy Torbay Steering Group
- Ageing Well Torbay.

The Health and Wellbeing Board (the Board) will seek assurance that issues are being addressed, and it will also identify areas where it can add value.

The work of the Board will be set out in an Annual Work Programme which will be determined by identifying:

- **Issues to Watch** – these are areas where the Board is interested but only needs to keep a watching brief on delivery, probably through oversight of key outcomes. The Board will trust that other organisations or partnerships are delivering the system priorities.
- **Issues to Sponsor** – these are areas that the Board will actively promote but leaves other organisations and partnerships to deliver, seeking only assurance of outputs and outcomes from this work. The Board will encourage integration and partnership working to deliver system priorities. There will normally be no more than four issues to sponsor each year.
- **Areas of Focus** – these are areas where the Board will have more direct involvement and debate to assure itself the detail of the delivery. The Board will be seeking a commitment to action from its partner members. There will normally be two areas of focus each year.

Each year, a review will be undertaken by the Board to agree which areas require which particular focus. The measures on the following page will be used to track progress against the priority areas.

Measure	Time period	Type	Torbay	Similar areas	Devon wide – STP	National	Trend
Early years good development	2016/17	%	71.7%	70.9%	69.8%	70.7%	
Child poverty	2015	%	20.2%	18.1%	14.6%	16.8%	
Attainment gap in schools	2017	%	23%				
Smoking in pregnancy rate	2016/17	%	15.2%	13.5%	12.5%	10.7%	
Adult smoking rate	2016	%	16.7%	16.0%*	14.1%	15.5%	
Physically active adults	2016/17	%	67.1%	65.5%*	69.5%*	66.0%	
Alcohol attributable admissions	2016/17	Per 100,000	2444	2504*	2188*	2185	
Children overweight or obese in year 6	2016/17	%	34.0%	34.8%	30.3%	34.2%
