

Hi. Its just about new rules u want put in on new taxi licence.

As u know there is more and more drives its getting harder for all of us and u sounds like want make more expensive

If the car has mot for year then its good to run for year...we all service cars regular anyway

And then m.o.t in your choice garage?

Why?

All garages do same thing on mot and fallow same rules

Im paying £25 for my mot and your choice garage will charge £60!

Why do i have to pay more just because u want it? im.happy to do it in any garage but if u will pay diffetence in price

Its just my opinion as u ask for it.

Have a good day

Many thanks
