1. What we are trying to achieve and the impact on our customers

- 1.1 To ensure that the places on the Committees are allocated in accordance with the relevant statutory requirements.

2. Recommendation(s) for decision

- 2.1 That the Council the overall political balance of the committees as set out at paragraph A1.3 be approved.**

3. Key points and reasons for recommendations

- 3.1 Following notification from Councillor James (dated 26 June 2012) that he now wishes to be a member of the Non-coalition Group this has resulted in changes to the political make-up of the Council. There are now 21 Members of the Conservative Group (including the Elected Mayor), 10 Members of the Liberal Democrat Group and 5 Members of the Non-Coalition Group and 1 Labour Member. The political balance is now:

Conservative Group	21 seats	= 56.8%
Liberal Democrat Group	10 seats	= 27%
Non-Coalition Group	5 seats	= 13.5%
Labour	1 seat	= 2.7%

- 3.2 The change in the political make-up of the Council has resulted in two seats on Committees being transferred from the Conservative Group to the Non-Coalition Group. Proportional distribution of seats on Committees is set out at paragraph A1.3.

A1. Introduction and history

- A1.1 The Local Government and Housing Act 1989 requires the Council to allocate seats on committees to political groups in accordance with the size of each group as a whole, unless alternative arrangements are notified to all Members and agreed without any councillor voting against them. The Council is required to observe the following principles as far as it is reasonably practicable:
- (a) that not all seats on the body are allocated to the same group;
 - (b) that the majority of seats on the body are allocated to a particular political group if the number of persons belonging to that group is a majority of the authority's membership;
 - (c) subject to paragraphs (a) and (b) above, that the number of seats on the ordinary committees of a relevant authority which are allocated to each political group bears the same proportion to the total of all the seats on the ordinary committees of that authority as is borne by the number of Members of that group to the membership of the authority; and
 - (d) subject to paragraphs (a) to (c) above, that the number of seats on the body which are allocated to each political group bears the same proportion to the number of all the seats on that body as is borne by the number of Members of that group to the membership of the authority.
- A1.2 The proposed newly appointed Standards Committee (see separate agenda item for further details) is now included as part of the requirements of political balance.
- A1.3 The Council is required to determine the number of seats on each committee and the allocation of those seats to the political groups and the independent members. Applying the principles of the Local Government and Housing Act 1989 and the supporting Regulations, the following option for distribution would be proportional (the co-opted members are not included in the calculation for proportionality purposes):

A1.4 Members are asked to note that any decision to waive the requirements of political balance will require a resolution of the Council with no Member voting against.

A2. Risk assessment of preferred option

A3. Other Options
