

**Braintree District Monitoring Report 2018**  
**Addendum to the Monitoring Report:**

**Subject:**

**Five Year Housing Supply 2018-2023**

**11 April 2019**

## **1 The target**

- 1.1 Braintree District Council now normally reviews housing land supply on an annual basis, in accordance with Government Practice Guidance.
- 1.2 However, the Government has made changes to the assessment of housing land supply, and this has led to the need to review the 5 year supply position. The review continues to examine forecast supply for the 5 year period 2018-2023.
- 1.3 In July 2018 the Government published the Revised National Planning Policy Framework (2018) which introduced the approach of the Standard Methodology for calculating the 5 year supply target for decision making in districts where there was no up to date Local Plan. This was the position for Braintree District, because the adopted Review Local Plan (2005) was more than 5 years old and the emerging new Local Plan is not yet adopted.
- 1.4 The NPPF was supported by revised Practice Guidance, published in September 2018.
- 1.5 According to the Standard Methodology (2018) the target was calculated using data from the latest household projections, and applying a ratio from the latest local housing affordability ratio published by the Office for National Statistics. A buffer should then be applied to the target. Whether the buffer should be the standard 5% buffer or increased to 20% was to be defined by the results of the Housing Delivery Test taking into account housing delivery over the past three years. The Housing Delivery Test was due to be published in November 2018, as stated by the Government in the NPPF, and this buffer requirement definition took effect from when the HDT results were published.
- 1.6 In September 2018 the Office for National Statistics (ONS) published 2016 based household projections. These then formed the basis of the calculation of the housing target for the 5 year supply for Braintree District.
- 1.7 The Government then published a consultation which proposed to change the Standard Methodology to revert, as a temporary measure, to using the (generally higher) 2014 based household projections.

- 1.8 The Government published a revised version of the NPPF in February 2019, together with revised Practice Guidance, and the results of the Housing Delivery Test 2018 (delayed from November). The use of the 2014 household projections produced a higher requirement for Braintree District in Step 1 of the calculation (632, being the annual average projected increase 2018-2028 in the 2014 based household projections). This is an increase compared to the Step 1 target from the 2016 based projections, which was 507.
- 1.9 On March 28 2019 the Office for National Statistics published the latest (2018) local housing affordability ratios. The local housing affordability ratio for Braintree District has increased from 9.5 in 2017 to 10.17. This results in a local affordability multiplier of 1.385625 for Step 2 of the calculation of the target (increased from 1.34375 in the 2017 results published by ONS in April 2018). When this ratio is applied the annual average target increases to **876**.
- 1.10 The local housing affordability data compares the median average house price of properties sold in the District over the year ending at September to the median average income of people working in the District according to earnings sample survey data. House prices in the District have risen, but in addition the data showed a reduction in the median average earnings of people who work in the District. A high proportion of the District commutes to work outside the District where average earnings are higher, and new housing developments in the District are generally marketed as attractive locations for commuters. Average earnings nationally have increased and the earnings of residents, including commuters, is likely to have increased (interim, quarterly, data indicated a rise above the national average). The results for the average earnings of people working in the District may to some extent reflect the employment structure, and may reflect the volatility of sample survey data at low geographic levels such as districts.
- 1.11 Step 3 of the calculation caps the level of any increase over the household projections to 40%. As the Braintree District increase in Step 2 was less than 40%, this is not currently relevant to Braintree District.

1.12 Step 4 applies the buffer (as defined in the Housing Delivery Test Results 2018) to the target. When the Housing Delivery Test Results were published in February this confirmed the buffer for Braintree District at 5%. When applied to the target, this increases the annual average target to 920 and the 5 year supply target to **4,598**.

1.13 These calculations are summarised in Table 1:

<b>Table 1: Calculation of the target for 2018-2023</b>	
<b>Stage 1: Setting the baseline: the ONS 2014 based household projections</b>	
Average annual increase in households 2018-2028 Braintree District	632
<b>Stage 2: Adjustment to take account of ONS 2018 local housing affordability data</b>	
Braintree District affordability ratio 2018	10.17
Adjustment factor: (Local ratio minus 4) divided by 4, and then multiplied by 0.25	0.385625
= local affordability ratio to apply:	1.385625
Five years' worth of target before buffer applied, based on 2014 household projections, 2017 affordability ratio published April 2018	4,379
= Baseline annual target after application of local affordability factor and before buffer applied	876
<b>Stage 3: Capping the increase</b>	
The effect of the local affordability ratio is capped at a maximum of 1.4. As Braintree is currently under 1.4, this makes no change	
<b>Stage 4: Application of the buffer</b> The 2018 Housing Delivery Test results (published February 2019) have confirmed the buffer is currently 5%	
Annual target (876 + 5%)	920
5 year supply target (4,379 + 5%)	4,598

## 2 The supply

- 2.1 The revisions to the NPPF Practice Guidance also changed the approach to the assessment of deliverable supply, and the Council has reviewed the evidence of deliverability on the sites identified by the Council in the 5 year supply assessment 2018-2023.
- 2.2 Further guidance on the sort of evidence needed according to categories of sites and the context has been promised by the Government but is still outstanding.
- 2.3 Sites with detailed permission and small sites with outline permission (i.e. less than 10 dwellings) can be taken as deliverable unless there is evidence to the contrary – and if there are formal phasing restrictions these should be taken into account (this does not apply to any of the sites in the Braintree District 5 year supply).
- 2.4 For larger sites with outline permission, or allocated in adopted plans, information and clear evidence is needed that delivery of completions will start within the 5 year period. Such evidence can include current planning status, timescales and progress towards detailed permission. Information from developers about their sites is important in assessing deliverability.
- 2.5 Table 2 summarises the deliverable supply in Braintree District by planning status.

<b>Table 2: Summary of 5 year supply 2018-2023 by planning status as at 1 April 2018</b>	
As shown in 2018 Monitoring Report, February 2019:	
Sites under construction	1,360
Sites with full permission, development not yet started	629
Small sites with outline permission	66
Windfall allowance	225
Lapse/expiry allowance	-75
Other sites identified as at 1 April 2018: As reviewed against supporting evidence April 2019	
Large sites with outline permission as at 1 April 2018	2,174
Sites with Resolution to Grant as at 1 April 2018	231
Adopted Allocation, North West Braintree	200
<b>Total projected supply, excluding communal accommodation</b>	<b>4,810</b>

- 2.6 For sites with full permission and small sites with outline permission the supply is as detailed in the site trajectory in the 2018 Monitoring Report published in February 2019. Sites developed via Prior Approval process (e.g. conversion of offices or farm buildings via Prior Approval) are included within this category.
- 2.7 For larger sites without detailed permission - including sites with outline permission; sites with a Resolution to Grant subject to the signing of a Section 106 Agreement as at 1 April 2018; and the adopted Growth Location allocation at North West Braintree which is the subject of a current hybrid planning application – were reviewed against information and evidence of deliverability. This included contacting site developers and agents responsible for the sites; reviewing progress including progress towards the submission of planning applications, and a sense check of reviewing the forecast delivery against recent progress on sites.
- 2.8 Appendix 1 to this addendum summarises information on the sites reviewed (large outline permissions; sites with a Resolution to Grant permission; and the adopted allocation at North West Braintree). Appendix 2 provides more detailed supporting information and evidence on these sites.
- 2.9 The results of the review demonstrated that such sites are coming forward. Although the total expected supply from large outline sites appears substantial at 2,174, Table 3 summarises the current status of these sites:

<b>Table 3:</b>	
<b>Deliverable supply 2018-2023 from large sites with outline permission as at 1 April 2018: Updated status</b>	
Under construction	351
With detailed permission, not yet started	532
Resolution to Grant on detailed permission (in addition to the outline)	218
Full or Reserved Matters application pending consideration	572
Full or Reserved Matters application in preparation	461
<b>Deliverable supply 2018-2023 from large sites with Resolution to Grant as at 1 April 2018: Updated status</b>	
With outline permission, Full or Reserved Matters application in preparation to be submitted over next few months, developer on board, deliverable supply forecast provided ( <i>Braintree Road Crossing, Countryside Properties, outline consent for 225 homes, deliverable supply by 2023 3 years at 50-60 dpa; and Bury Farm Hatfield Peverel, 46 homes, Bellway Homes, deliverable supply by 2023 46 homes</i> )	209
With outline consent, not yet with deliverable supply forecast from identified developer ( <i>Hedingham Road Gosfield – 35 - and Morleys Road Earls Colne – 20</i> )	55

- 2.10 These were sites identified as at 1 April 2018 as expected to produce completions in the 5 year supply period 2018-2023: although additional sites have been identified through the development management process since 1 April 2018 and these sites are expected to add to supply before 2023, the Council will take such sites into account in the roll forward of the supply review to the period 2019-2024. These additional sites reflect the action the Council continues to take to increase supply.
- 2.11 The supply assessment includes an allowance for windfall sites, at 75 dwellings per year from Year 3 of the 5 year supply period; and an allowance for expiry of permissions at 15 dwellings per year over Years 1-5. The evidence supporting these allowances is detailed in the Monitoring Report.
- 2.12 As part of the review of evidence, the Council carried out an analysis of the lead time in recent developments on larger sites from the date of detailed permission to the timing of first delivery of completions. This analysis also examined delivery rates year by year from the date of detailed permission. This evidence is set out in Appendix 3 to this addendum. This demonstrates that lead times vary depending on the site. The longest lead time, at 24 months, was at Portway Place Halstead where existing old employment buildings on this brownfield site needed to be cleared before development could commence. It is more usual however for the lead time to be approximately 1 year, and there were several examples where construction commenced very soon after granting of detailed consent and completions started to be delivered well within the year, for example at the Lodge Farm site in Witham.
- 2.13 The review also demonstrated how on the larger sites such as Lodge Farm, more than one outlet can be operating at one time, and phases of development can come forward before earlier phases are completed. At Lodge Farm (Redrow Homes) and Forest Road (Bellway Homes), land with outline permission at 1 April 2018 was part of larger sites which were under construction, and these subsequent phases come forward without the lead time expectations that might be expected in the case of an outline permission site where development has not started.

### **3 Review of 2017 trajectory**

- 3.1 Government guidance suggests that the Council should review the previous (2017) Monitoring Report trajectory to examine progress on sites. Appendix 4 compares the information in the 2017 trajectory for sites of 10 or more dwellings that would be in the 5 year supply with information on progress and a review of forecasts.
- 3.2 This demonstrates that whilst some sites have not come forward as quickly as forecast, others are coming forward more rapidly.

### **4 Communal accommodation**

- 4.1 To this assessed supply should be added projected supply from communal accommodation, in accordance with Government Guidance. The publication of the Housing Delivery Test data now provides the ratio to be applied to this supply. The Council has included sites with detailed permission in this category.
- 4.2 For student accommodation a ratio of 2.5 is applied. For other communal accommodation a ratio of 1.8 is applied. There are no student communal accommodation developments identified in Braintree District. The total number of net additional rooms identified 2018-2023 is 105. After dividing by 58, this results in a net contribution to supply of 58. These permissions are listed in the schedule in Appendix 5.

#### 4 The 5 year supply position: comparison of reviewed 2018-2023 target against reviewed 2018-2023 supply

- 4.1 Table 4 compares the reviewed target, as amended to reflect the 2018 local housing affordability ratio (published 28 March 2019) with the 2018-2023 projected deliverable supply, taking into account the reviewed evidence of deliverability (Table 2 and paragraph 3.2, above). This results in a **5.29 year supply**.

Annual average target	920
5 year supply target 2018-2023	4,598
Projected deliverable 5 year supply before communal accommodation taken into account	4,810
Projected contribution to deliverable 5 year supply from communal accommodation after application of ratio of 1.8 as per Housing Delivery Test specification	58
Total projected supply	4,868
<b>Years supply</b>	<b>5.29</b>
Projected surplus against target	270

Phase 1a had full permission at 31.3.2018 and so is not included in this outline capacity. Currently Phase 1a (nearing completion, only 11 plots outstanding at April 2019) and Phase 1b (granted 4 Sept 2018) are both under construction. On the overall site, a total of 95 homes were completed in the year 2018/2019 of which 15 were from Phase 1b which had outline consent at April 2018. Phase 1B, 84 total as at April 2018 and with outline consent, had 67 plots under construction and 2 plots not started as at April 2019. Phase 2 now has detailed permission for 57 homes, granted 26 March 2019 - and sales have launched ("The Junipers"), and plans are being drawn up for submission of details for Phases 3 and 4 this year. Developer has advised sales strong, currently averaging 1.3 per week compared to more usual average of 1 per week. Affordable housing at 30% is in addition to sales.

Dear Kathryn,

The land at Gosfield is no longer owned by Marden Homes Ltd. We are now acting on the site on behalf of it's new owner, Chelsteen Homes. The contact there is Bill Poulton.

A revised planning application has been submitted to BDC for consideration. There are no significant issues that have been identified however that should present delay to delivery should the revised application be determined favourably.

Please let me know if you would like us to complete a revised form in this regard.

Dear Laura,  
Please see the attached file. Braintree District Council needs to check information the anticipated timing of completions on the above site, as part of work on checking the deliverable housing land supply in the District. Our records show that you were the contact for the development; could you please advise on the site or provide contact details for someone who can confirm?  
Kind regards,

Kathryn Carpenter

## Review of Housing Sites Identified in the 5 Year Supply 2018-2023

The National Planning Policy Framework (July 2018) requires local planning authorities to identify and update annually a supply of specific deliverable sites to be measured against their housing requirements (paragraph 73). As part of this process, local planning authorities are required to engage with developers and others who have an impact on delivery (see paragraph 74).

As you represent one or more of these sites, we would appreciate you taking the time to fill out the below form. Please complete a separate form for each site.

This form can be returned electronically to [planningpolicy@braintree.gov.uk](mailto:planningpolicy@braintree.gov.uk) or in hard copy if necessary to: Planning Policy, Braintree District Council, Causeway House, Bocking End, Braintree, CM7 9HB.

Hi Catherine,

Thank you for our meeting on Friday. I have asked Lee to go through the boundary treatment plan with me this week so I will provide comments on this shortly.

In terms of the coloured block plan, please may I have an electronic copy of this?

I have also been asked if I could get some confirmation in writing from you in respect to timescales for the REM submission? And when roughly will works commence?

Could you also please give an indication if possible please?:

- If the site will start to produce completions before April 2023
- View of expected development rates - how many of the 165 are expected to be completed by April 2023?

Many thanks in advance for your help.

Kind Regards,

**Mathew Wilde**

Afternoon Tim,

Thanks for your email, I would comment as follows:

- We are ready to submit – we are just waiting for the decision notice to ensure it is not lost in the system.
- We would hope to be complete and off site by April 2023
- Completions are assumed as follows but these will likely change following appointment of a contractor and also the decision date:

April 2019/March 2020: 4  
April 2020/March 2021: 35  
April 2021/March 2022: 11  
April 2022/March 2023 0

Please be advised that we are currently programming the S106 units to be delivered in the first Phase.

Regards,

Conan

Conan,

I'm aware that you are chasing Chris for the DN for the above. I have also chased – he is interviewing all day today so may not be able to respond today.

I would be grateful if you could provide a short email setting out the answers to the below. This is to assist with our Planning Policy Team's assessment of the deliverability timescales for your Silver End site.

- When do you plan to submit the full planning application?
- Will the site start to produce completions before April 2023?
- How many completions are they planning for in the years:

April 2019/March 2020:  
April 2020/March 2021:  
April 2021/March 2022:  
April 2022/March 2023

Many Thanks

Dear Kathryn,

We intend to be in a position to submit an application for planning shortly - in late March or early April 2019. Assuming we are successful I would anticipate completion of the whole site in the first quarter of 2021 based on our clients current aspirations.

I am unable to provide the name of the developer at this time but I trust the above information answers your main queries.

Kind Regards,  
Heather.

**Subject:** Development site at land at Ashen Road Ridgewell  
**Importance:** High

Dear Heather Organ,

We spoke on the telephone recently, when I was enquiring about whether this above site is coming forward for development in the next few years, as you acted as agent for a Mr J Williams in a 2018 pre application, following the sale of the site by the landowner to a developer. The site currently has the benefit of an extant outline permission and is shown as a draft allocation in the emerging Draft Braintree District Local Plan. You kindly provided me with a verbal response, confirming that the site is now owned by a developer, and that a detailed planning application is being drawn up for submission (in 2019?) following on from the pre-application consideration.

Could I please ask if you could provide this confirmation in writing for us – by e-mail response would be fine? If possible, as well as confirming whether the site is expected to start to produce completions by April 2023, any information would be helpful if available on expected estimated timescales for submission of the planning application, start on site, and expected number of dwellings by year –

April 2019/March 2020 (I assume that will be 0)

April 2020/March 2021  
April 2021/March 2022, and  
April 2022/March 2023.

If you are able to confirm the name of the developer that would also be helpful.

Kind regards,

Kathryn Carpenter

---

Morning,

I would advise the following for Conrad Road, Witham (Southfields):

- . We have submitted the application and awaiting for further timescales etc
- . Yes, this scheme along with Silver End are key to delivering our Homes England Programme and overall targets
- . Completions are assumed as follows but these will likely change following appointment of a contractor and also the decision date:

April 2019/March 2020: 0  
April 2020/March 2021: 21  
April 2021/March 2022: 67  
April 2022/March 2023: 36  
April 2023/March 2024: 26

Please be advised that we are currently programming the S106 units to be delivered April 21/22 hence the spike in completions.

Regards,

Conan

# Review of Housing Sites Identified in the 5 Year Supply 2018-2023

The National Planning Policy Framework (July 2018) requires local planning authorities to identify and update annually a supply of specific deliverable sites to be measured against their housing requirements (paragraph 73). As part of this process, local planning authorities are required to engage with developers and others who have an impact on delivery (see paragraph 74).

As you represent one or more of these sites, we would appreciate you taking the time to fill out the below form. Please complete a separate form for each site.

This form can be returned electronically to [planningpolicy@braintree.gov.uk](mailto:planningpolicy@braintree.gov.uk) or in hard copy if necessary to: Planning Policy, Braintree District Council, Causeway House, Bocking End, Braintree, CM7 9HB.

---

Good morning Kathy,

For Meadow Rise, the previous figures should still stand, although you may wish to roll the 6 from 2018/19 into the following period if this is an end of March cut off (ie – 45 in 2019/20; 70 in 2020/21; 90 in 2021/22 and 10 in 2022/23).

For Braintree Road we are hoping to start on site at the end of 2019 – subject to planning; and would therefore anticipate delivery of 50 – 60 units per year once on site, so the previous figures look about right.

Does that help?

Kind regards

Emma

---

Dear Emma –

I am seeking confirmation from Countryside Properties on the forecast supply from two sites that Countryside have, that are included in the March 2018 5 year supply assessment 2018-

2023. I e-mailed Countryside in December but have not had a reply, and Neil suggested that you could help me on this.

The two sites are Meadow Rise London Road Braintree, and Braintree Road Cressing.

Meadow Rise Braintree is of course under construction with new homes actively being marketed. I assume it is safe to take it that there will be completions before 2023. I had used forecasts previously supplied by Countryside, 6 dwellings 2018/19; 39 in 2019/20; 70 in 2020/21; 90 in 2021/22 and 10 in 2022/23.

Braintree Road Cressing is a site that in the context of the revised Planning Practice Guidance etc I really need confirmation on as this is a site subject of an outline planning application which was approved subject to a Section 106 signing as at March 2018. I understand from Neil that the Section 106 has recently been signed. Can you please confirm for me:

- a. if you believe that that completions will begin on site before 2023
- b. the expected rate of completions.

Based on information previously supplied by Countryside, I have forecast 166 completions on this site by March 2023; 39 in 2020/21; 55 in 2021/22 and 72 in 2022/23.

Many thanks for your assistance on this,

Kathryn Carpenter

Dear Kathy

Apologies for not coming back to you sooner, but please find the attached.

I am also handling the adjoining Morleys Rd site that has just obtained s106 sign off.

The replies would be exactly the same, except I would target 20 units in the year from April 2020.

Yours sincerely
